1 Mono and colour print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software and page complexity. For more information, visit www.epson.com.au/printspeed/
2 Replacement ink pack yields are estimated based on ISO/IEC 24711 test in default mode printing continuously. Ink pack yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour.
3 Only printing supported under Windows Server OS.
4 Some applications and/or functions may not be supported under Mac OS X.
5 Internet access is required to download and install drivers and software.
6 Not all media types are supported for PCL printing.
